

Type 310 - Moulded Timing Pulley Roller

Features

- Materials - Carbon Steel / Stainless Steel
- Bearing Housing - Polymide Molded
- Roller Dia. - 50.8 x 1.6mm thick
- Timing Pulley - 5M x 28Teeth
- Belt Width - 9mm
- Surface Treatments for Carbon steel - Zinc Plated, Chrome plated
- Surface Treatment for SS - Mirror Polished
- Coatings - PU Coated, PVC Sleeve
- Works at Room Temp
- $BF = RL + 43$
- $SL = RL + 44$ Minimum
